HPP18E

HYCON HPP18E is equipped with a powerful 11 kW motor. We offer two versions: 30 l.p.m. or 40 l.p.m.

It is mostly used indoor. Typically the customers are professional companies specialized in drilling/cutting concrete, who use $\varnothing 400/\varnothing 450$ mm cut-off saws, diamond chain saws and ring saws. Also widely used for ground water lowering.

In spite of the strong motor, the HPP18E is a compact powerpack easy to transport in any van. It is very strongly built, and can work even under the toughest conditions, because the motor and the electric box are approved for IP55 and IP54, respectively.

HPP18E has a slow start function reducing the load during starting. It needs no water cooling as it has integrated oil cooler, which is a great advantage - especially in the winter time.

Technical Data

Oil flow, l.p.m.	1x30 or 1x40
Max. pressure, bar	160
Motor	11kW 25A(30lpm), 35A(40 lpm)/3x400V 50 Hz
Flow	Fixed
Weight, kg	128
Noise level 1 m L _{PA} dB	86
Noise level L _{WA} dB	98
